

Fiat, Fiat Professional, Abarth

ERROR MESSAGES

An error message may appear on the navigation system during map installation. The list of error messages and the instructions to be followed are shown below for each case. If the installation is interrupted, the process must be started again from the beginning.

Nº	Mensaje de error	Tipología de error e instrucciones
1	<p><i>A. Please re-insert your USB device to continue.</i></p> <p><i>B. An error occurred during the update procedure. Please re-insert the USB device and try again or refer to the user manual.</i></p>	<p>Message "A" will appear on the navigation system if the flash drive is disconnected during the installation process followed by message B after the window has been closed. Plug the device into the USB port again and start the installation from the beginning.</p> <p>If the error message persists:</p> <ul style="list-style-type: none"> - save the map file and the licence on a new USB flash drive - or check that the file system of the flash drive is FAT32. <p>Remember that using device such as smartphones, hard disks or tablets is not advised.</p>
2	<p><i>The map on your USB device is older than your current version, Europe xxxxx. Please download the latest map.</i></p>	<p>The map you want to install on the navigator is less recent than the one which is already installed. Download the latest version of the available map from the Map Update portal.</p>
3	<p><i>An error occurred during the update procedure. Please remove the USB device and try again or refer to the user manual.</i></p>	<p>One or more files have been renamed or are missing from the flash drive. Save the files of the map and licence on the flash drive without placing them in a folder. Before proceeding with the installation, always check to have saved all the downloaded file on the USB flash drive. Files which are compressed in a ZIP folder must be extracted from the folder before saving them on the flash drive. The file name must not be changed.</p>
